A MESSAGE FROM THE BUSINESS MANAGER

I was recently given the opportunity to visit 2 projects the Brothers and Sisters of LU 570 are in the process of building, the hotel in downtown Tucson and the Banner UMC tower at the University. Both projects are a testament to the excellence and professionalism each one of us takes in our work, every day. Of course, the conduit racks ran straight and true, the switch gear was set with precision and the quality of work was 2nd to none.

What I observed the most, from both projects was, the pride each man and woman takes in their work; the pleasure of sharing their accomplishments with another Brother. The leadership of each project spoke of the problems that were solved by working as a team to create solutions. The journeymen, apprentices, construction electricians and construction wireman shared with me their contributions and undertakings. I am always impressed by what the men and women of the IBEW do every day. For the rest of their lives, these men and women will drive by these jobs and share with anyone that will listen "I built that". Stay proud of what you do and stay safe.
