Annual Picnic

## A MESSAGE FROM THE BUSINESS MANAGER

We are closing out 2019 with a bright future and a steady call for manpower from the Signatory Contractors. This is not the time for us to sit back and relax, but to continue to drive forward to increase our market share. When I consider the work outlook, I am not just considering the men and women that are members of Local 570, but all workers in the entire electrical industry performing work in our jurisdiction.

For Local 570 to grow wages and benefits, we must remember the non-represented workers and the non-signatory contractors that are willing to work for lower wages, no benefits and in sub-standard conditions. It is important we understand the impact these workers have on our wages and benefits. For these specific reasons, it is necessary for Local 570 to organize and welcome the non-represented worker into the IBEW family.

Over the last few years, we have seen the positive effects that organizing has brought to our Local. Increased work, better wages, increased membership, recently signed Signatory Contractors and more opportunities for employment. So, as we finish out 2019 and go into negotiations for our future, it is important that we continue to plow ahead in a positive direction. Support your Local Union by attending monthly meetings and staying involved with your future.

## TUCSON ELECTRICAL JATC

On August 20<sup>th</sup>, fifty-eight newly selected apprentices started their First year of apprenticeship. Scott Toot, IBEW President and Chuck Grube, Business Manager presented a “mock” union meeting with all first year apprentices learning the procedures and structure of running the union meeting.

Southern Arizona NECA, IBEW Local 570 and the Tucson Electrical Apprenticeship will be participating in Southern Arizona Construction Career Days, November 6 and 7. We offer two hands-on activities, circuitry and conduit bending. Last year 1400 high school students were in attendance.

Christian Tan is participating in the **2019 IDEAL Championship** contest, his time of 1 min 14 seconds is the top time in Arizona. Christian represented IBEW Local 570 for the 2018 IDEAL Championship contest as the top score in Arizona.

**APPRENTICE DAY!!!** Twenty-seven Tucson Apprentices and two instructors, Aaron Gonzalez and Josh De Spain attended Apprentice Day at **NECA 2019 Las Vegas Convention**. Lonnie Stephenson, IBEW President, Kenny Cooper, IBEW Secretary-Treasurer, David Long, NECA CEO, and Larry Beltramo, NECA President, answered questions from Apprentices at the NECA/IBEW Town Hall Meeting. The meeting started off with all four of the top executives showing their IBEW yellow ticket and sharing

their journey that started as an Apprentice. Apprentices were given

the opportunity to attend one of the largest trade shows in the industry. Thank you to Cindy Flowers, NECA Executive Director for organizing Tucson Apprentices meals and accommodations while Milwaukee Tools provided transportation. 300 Apprentices in attendance from around the United States. A big shout-out to our LLMCC (IBEW570 and Southern Arizona NECA – Labor/Management Committee) for funding this incredible trip.

**NATIONAL TRAINING INSTITUTE:** Tucson Electrical Apprenticeship Instructors attended the National Training Institute this summer in Ann Arbor, Michigan, Josh De Spain, Aaron Gonzales, Anthony Jordan, Michael Lilly, Jim Lynch, and Jim Redzinak.

This instructor training program employs Professional Educators from different colleges and universities throughout the United States. This is a four-year program receiving a completion diploma as a *Master Instructor*. Currently we have five Master Instructors.

The mission of the National Training Institute, while the focus is on Instructor training through the Professional Education classes and the “How to Teach” courses, there is also advanced technical courses our instructors are required to take. This week long training re-energizes our program with qualified educators who are ready to make a difference and be accountable for providing innovative and creative instruction. Being prepared to teach when we walk through the classroom door with clear objectives of what we want our students to learn is the key to our student’s success in this program. Our goal as a program is to foster a positive learning environment by giving our instructors the tools needed to enhance their presentation of the curriculum. The apprentices recognize our instructors truly care about their learning.

Our **staff of educators** are the core of the apprenticeship program as they provide a learning environment that enhances the effective execution of the lessons being taught. There is **enjoyment** in the classroom. Congratulations to Jim Lynch, 2019 Master Instructor Graduate. Jim Lynch joins the Tucson Electrical JATC with the following Master Instructors: Josh De Spain, Jim Redzinak, Ric Siegel, and Ben White.

*If you know of anyone who would like to have a career in the electrical industry, have them go to our website and apply for the apprenticeship program online: [www.tucsonjatc.org](http://www.tucsonjatc.org).*

**Karen King**  
**Training Director**
